Member Agreement

I understand that participating in a CSA is based on the idea of a shared risk. In the event of severe weather or crop damage the weekly harvest delivery may be less. Although severe damage to the entire crop is rare, The Back 80 may at their discretion refund a portion of the members cost or apply a credit to the next season. In the event of excellent weather and the harvest is bountiful, I agree to receive extra and be creative in my kitchen or share with a friend. At time of delivery/pick-up the harvest basket from the previous week will be available for exchange.
